

ALGICERACLEAN

LIQUID CLEANER FOR CERAMIC TILES,
CONCRETE FLOORS ETC.

DESCRIPTION

Algiceraclean is a highly concentrated liquid cleaning agent. Algiceraclean contains special additives, which loosens stain, cement and is suitable for cleaning ceramic floors, concrete floors and surfaces, masonry walls, clay tiles, granite stones etc.

ADVANTAGES

- Quickly removes/loosens the stains, cement dust on tiles.
- Algiceraclean can be used even in food industry.
- Water based product, hence non-inflammable.

METHOD OF USAGE

Algiceraclean has to be applied only in concentrated form. As soon as it comes in contact with the ceramic floor, cleaning effect starts. Immediately brush the surface with a nylon brush or wire brush to aid the cleaning action. The removed material should be washed off completely with clean water. In case of highly absorbent surfaces

such as clay tiles, bricks etc., dilute Algiceraclean with clean water in 1:3 to 1:7 ratio and use. This helps to remove stains and efflorescence.

PRECAUTION

Avoid contact of Algiceraclean with skin. On accidental contact with skin, it should be washed with plenty of water. When splashed on to eyes, it should be washed with plenty of water and medical advice should be taken immediately.

AREAS OF APPLICATION

- Can be used as a cleaning agent to remove cement, dust and any impure particles on tiles.
- Can be used to clean swimming pools, ceramic tiles, granite stone tiles etc.
- Can be used to remove concrete dust and other dirt on floors so as to have a clean surface for applying floor coats.
- Can be used to remove efflorescence or stains on clay, bricks or tiles. (Algiceraclean diluted in 1:3 to 1:7 with water)

TECHNICAL DATA

Specific gravity : 1.03 ± 0.01
Viscosity : 65 ± 5 secs on B1 cup
Base : Water
Colour : Greenish
